RUGBY MINING LIMITED
NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS
FOR THE NINE MONTH PERIOD ENDED NOVEMBER 30, 2014 AND 2013
(UNAUDITED)

1. Nature of Operations

Rugby Mining Limited (“Rugby” or the “Company”) is an exploration stage company incorporated under the laws of British Columbia, Canada and together with its subsidiaries, it is engaged in the acquisition and exploration of mineral properties located in Australia, Colombia, and the Philippines.

The Company is in the exploration stage with its various mineral properties. The continued operations of the Company is dependent upon the existence of economically recoverable reserves, the ability of the Company to obtain necessary financing to complete the development of such properties, and the profitable production from or disposition of such properties.

The Company has its primary listing on the Toronto Stock Exchange Venture (the “TSX-V”). The Company’s head office is located at 1660 - 999 West Hastings Street, Vancouver, BC, Canada, V6C 2W2.

2. Basis of Preparation

These condensed interim consolidated financial statements have been prepared in compliance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board applicable to the preparation of the interim financial statements, including International Accounting Standard (“IAS”) 34 *Interim Financial Reporting*. Accordingly, the accounting policies followed by the Company are set out in Note 4 of the audited consolidated financial statements for the year ended February 28, 2014, and have been consistently followed in the preparation of these condensed interim consolidated financial statements. These condensed interim consolidated financial statements should be read in conjunction with the annual consolidated financial statements. These condensed interim consolidated financial statements were approved and authorized by the Audit Committee of the Board of Directors for issue on January 22, 2015.

3. Mineral Properties – Acquisition and Exploration Costs (Continued)

Cobrasco Porphyry Copper Gold Project, Colombia

The Cobrasco concession, which is subject to a 1% net smelter royalty (“NSR”), was acquired in April 2013 (See Note 3(a)).

Comita Porphyry Copper Project, Colombia

On October 12, 2010, the Company announced it had entered into an option agreement (the “Comita Agreement”) over Comita, granting the Company the right to earn up to a 60% indirect interest in the project. The Comita Agreement provides that the mineral title at Comita will be transferred to a new Colombian entity (“Newco”) and grants the Company the right to earn an initial 40% interest in Newco upon completion of certain exploration activities and incurring expenditure commitments, with a further option to earn an additional 20% interest, for a total interest of 60% in Newco.

On May 6, 2014, the Company along with the Comita concession holder, amended the Comita Agreement such that the dates to meet the expenditure and drilling requirements have been extended. Under the amended Comita Agreement, the Company can earn the 60% interest in Newco (an effective 60% indirect interest in the Comita project) if it completes the obligations set out in the two options as follows:

Option 1: The Company has until October 20, 2018 to acquire an indirect 40% interest in the Comita project by incurring US\$10.0 million in exploration expenditures which include at least 10,000 m of drilling as follows:

(i) US\$250,000 on or before October 21, 2011, the first anniversary date of the agreement (incurred).

(ii) Thereafter the Company has the option, but not the obligation to incur US\$9.75 million with minimum annual expenditures of US\$250,000 (minimum yearly expenditure requirements have been met to date) until such time as the Comita project is removed from the forestry reserve, following which the minimum annual expenditure increases to US\$1.0 million.

Excess expenditure in any given year may be carried forward to the next year, however such carry forward is limited to US\$1.0 million at the end of Option 1. Upon incurring the expenditures set out above, the Company is required to provide the title holder with notice that it has met the requirements to acquire the initial 40% interest in Newco following which the title holder has 90 days to elect to resume management of the Comita project. In the event that the title holder elects to resume management of the Comita project, a joint venture will be formed and dilution provisions will apply. Should the title holder elect not to resume management of the Comita project, the Company will be granted a second option to acquire a further 20% interest in Newco as set out below:

Option 2: Upon the Company being granted the second option it will have 3 years to acquire an additional 20% interest in Newco for a total 60% indirect interest in the project by incurring an additional US\$15.0 million in expenditures, including 20,000 m of drilling with minimum annual expenditures of US\$1.0 million on or before October 20, 2021.

3. Mineral Properties – Acquisition and Exploration Costs (Continued)

Mabuhay Gold Project, Philippines

On October 5, 2010, the Company announced it had entered into agreements with Pelican Resources Limited (“Pelican”), an ASX listed company, and All-Acacia Resources Inc. (“All-Acacia”), a Philippine company over the Mabuhay project in the Philippines. The agreement with Pelican and its Philippine subsidiary, SunPacific Resources Philippines, Inc. (“SunPacific”), together with the agreement with All-Acacia (collectively, the “Mabuhay Agreement”) grant the Company the right and option (“Mabuhay Option”) to earn an 80% interest in the Mabuhay project. Pursuant to the terms of the Mabuhay Agreement, the Company paid signature fees totaling US\$70,000.

As a result of a Philippine government moratorium on the granting of new Mineral Production Sharing Agreements (“MPSA”) pending legislation enacting a revised revenue sharing scheme, the Company along with All-Acacia signed an amended Mabuhay Agreement (the “Amended Mabuhay Agreement”) to allow for the conversion of the MPSA Application to an Exploration Permit Application (“EPA”) as it is anticipated that an Exploration Permit (“EP”) will be granted by the Philippine government earlier than an MPSA. An EP would allow the Company to conduct drilling at Mabuhay. An EPA was submitted to the government in March 2013 and all future payments as defined in the Amended Mabuhay Agreement have been deferred until the EP is approved by the federal authorities.

Under the Amended Mabuhay Agreement, in order to maintain its option, the Company is required to make staged payments totaling US\$750,000 over three years from the grant date of the EP, incur staged expenditures totaling US\$4.5 million over six years from the grant date of the EP, and complete a pre-feasibility study to earn its interest and exercise its Mabuhay Option.

In the event that the Company exercises the Mabuhay Option, it will be required to make an additional US\$175,000 payment to All-Acacia within 30 days from the grant and registration with the appropriate Mines and Geosciences Bureau Regional Office of the appropriate mineral agreement (MPSA or Financial and Technical Assistance Agreement) on the property, and Pelican will be paid a further US\$5.0 million if commercial production commences at Mabuhay.

Upon the exercise of the Mabuhay Option, All-Acacia and the Company have agreed to form a joint venture with respect to the development of and conduct of mining operations on the property and on each anniversary date thereafter, the Company must pay an additional US\$200,000 to All-Acacia towards All-Acacia’s pro-rata share of expenditures until commencement of production from the Mabuhay project.

The Great Northern Gold Project, Australia

On March 20, 2014 the Company entered into an option agreement with Australian listed company, De Grey Mining Limited over the Great Northern Gold Project (the “GNGP”). The GNGP includes a 714 square km tenement package (the “Tenements”) and is located in the Pilbara region of Western Australia, 60 km south of Port Hedland.

The Agreement grants Rugby an option to earn an 80% interest in the Tenements and an additional option to purchase an 80% interest in a near surface historical resource at Wingina Well.

Pursuant to the GNGP Agreement, Rugby paid De Grey A\$100,000 and will have two options as follows:

- 1) a three year option to acquire an 80% interest in the Tenements by incurring a total of A\$2 million in expenditures with a minimum expenditure commitment of A\$500,000 (minimum requirement completed); and
- 2) an option to purchase an 80% interest in the historic near surface resource at Wingina Well for A\$3 million, by paying A\$2 million at any time within 54 months of date of the GNGP Agreement and a further A\$1 million within 30 days of a decision to mine any part of the historic resource at Wingina Well.

Hawkwood Property Australia

Pursuant to agreements entered into with Rowen Company Limited (“Rowen”) a company controlled by Bryce Roxburgh, a director of the Company, in 2008 and amended in 2009, the Company had the option (“Hawkwood Option”) to acquire up to an effective 90% indirect interest in the Hawkwood property in Queensland Australia.

Pursuant to the Hawkwood Option the Company paid Rowen A\$225,000, issued 1.5 million common shares with a fair value of \$615,000 and was required to incur exploration expenditures of A\$1million to earn an initial 60% interest in Hawkwood.

The Company, having earned a 60% interest in Hawkwood, entered into an agreement with Eastern Iron Limited, an Australian listed company (“Eastern Iron”) for the sale of 100% of Hawkwood for a 2% net smelter royalty (NSR). In order to facilitate the sale of Hawkwood, the Company and Rowen amended the Hawkwood Option such that it would acquire an effective 100% interest in Hawkwood without any further consideration and would hold the NSR as to 1.2% for its own account and 0.8% on behalf of Rowen.

The Company has no further obligations or direct involvement in Hawkwood.

4. Share Capital

Authorized and issued

The authorized share capital of the Company is an unlimited number of common shares without par value.

The Company has issued common shares as follows:

	November 30, 2014		February 28, 2014	
	Number of Shares	Amount	Number of Shares	Amount
Balance, beginning of period	46,035,000	\$ 15,238,612	46,035,000	\$ 15,238,612

During the nine month period ended November 30, 2014, no common shares were issued.

5. Stock Option Plan

The Company has adopted an incentive stock option plan (the “Plan”), the essential elements of which are as follows: The aggregate number of shares of the Company’s capital stock issuable pursuant to options granted under the Plan, which was approved by shareholders on November 27, 2013, may not exceed 20% of the total number of issued and outstanding shares of the Company on a non-diluted basis. At November 30, 2014 the maximum number of options issuable under the Plan was 9,207,000. Options granted under the Plan may have a maximum term of ten years. The exercise price of options granted under the Plan will not be less than the discounted market price of the common shares (defined as the last closing market price of the Company’s common shares immediately preceding the grant date, less the maximum discount permitted by TSX-V), or such other price as may be agreed to by the Company and accepted by the TSX-V. Options granted under the Plan are generally exercisable immediately following the grant however certain options may be subject to vesting at times as determined by the directors of the Company and the TSX-V.
